Vaishnavi Pande

• +91 9657219918 • vaishnavipande27@gmail.com • Github • LinkedIn

Dynamic IT student with hands-on experience in web development, data management, and software development. Experienced in building user-centric applications and tools, including a travel expense management web app and a browser extension for price comparison. A beginner in React.js, actively solving DSA questions on competitive programming platforms, and continually exploring emerging technologies to enhance technical expertise and contribute to impactful projects.

Projects

Travel treasury

- Designed and developed a web application to manage and distribute travel expenses among friends or colleagues. The app supports seamless expense tracking, splitting, and generating summaries for better financial management.
- Technologies used: HTML, CSS, JavaScript (front end), Node.js (back end), MongoDB

Portfolio

- Developed a ser-friendly portfolio website to showcase my projects, skills, and experience.
- Implemented modern design principles and interactive elements to enhance user engagement.
- Technologies used: HTML, CSS, JavaScript

Research Projects in Machine Learning

- Regression Models: Conducted research on various regression algorithms to predict numerical outcomes, improving model accuracy through feature engineering and hyperparameter tuning.

Skills

• C++ • Java • DSA • Html & Css • Javascript • MongoDB • SQL • React js • Git & Github

Education

MAY 2019
SSC | S.O.D.M.V. Sengaon | 94.20%

MAY 2021
HSC | Swami Vivekanand jr college Jintur | 93.50%

EXPECTED GRADUATION: 2025
Bachelor of Technology (B.Tech) in Information Technology | SGGSIE&T Nanded|7.89
